

Saudi Arabia's Unicoil gets Kuwaiti Quality Mark

Saudi Arabian flat steel re-roller and coater Universal Metal Coating (Unicoil) has been awarded the Kuwaiti quality mark, the company said on Sunday January 24.

The company has a push-pull pickling line with production capacity of 400,000 tpy, a cold rolling mill with capacity of 340,000 tpy, a continuous galvanizing line with capacity of 250,000 tpy, and two colour-coating lines each with capacity of 210,000 tpy - one in Jubail Industrial City and the other in Jeddah.

Unicoil already held certifications for its galvanized steel products including those from Saudi Arabia's SASO, the UAE's ESMA, Jordan's JSMO and the ISO quality certificate.
